PREFACE.

As this Volume is the first of its kind published in the Madras Presidency, a few introductory remarks appear necessary.

The existence of the Government Order respecting Sanskṛit MSS. dated the 16th December 1868, No. 423, containing the resolution of the Governor-General in Council, dated Simla, 3rd November 1868, No. 4,349, was unknown to me until the 18th May 1876, and the Order itself was eventually communicated to me on the 28th July 1876. Hence the delay in the publication of Lists of Sanskṛit MSS. in this Presidency.

As the opportunity has not been afforded to me of visiting districts with a view to examine their libraries, I wrote to various Collectors of Districts, to Divāns of Native Princes and to other Native gentlemen, who are reputed owners of valuable libraries or who are acquainted with Pandits, about supplying lists of Sanskṛit MSS. At the same time I distributed blank foolscap sheets with headings printed in English, Tamil and Telugu concerning the name of the MS., its subject-matter, the name of the author, the substance on which and the characters in which the MS. is written, the number of pages and of lines on a page, and the age of the MS.

A considerable time elapsed before some of these forms were returned to me filled up, as there exists among the Pandits great suspicion as to the ultimate aim of these inquiries, though I had taken pains in assuring them that their property was not to be interfered with. Even where answers had been sent, they did not include as a rule the names of all the valuable books possessed by them, many very important works being in fact frequently omitted, for Pandits are as a rule indisposed to make such communications. To obviate this difficulty I induced former pupils of mine who had taken their University degrees, and who reside in different parts of the country, to collect lists for me, as they have easier access to Pandits.

Each list is separately printed in alphabetical order, so that it may be distributed to the owner of the MSS. By such distribution, it is

hoped, others may be induced to communicate the contents of their libraries.

The columns containing the subject-matter and author's name having rarely been filled up by the Pandits, I have supplied this deficiency to the best of my ability; the contents of the columns are therefore enclosed in brackets.

The age of the MSS. mentioned in the lists has been communicated by the Pandits, and their statements have not been altered, even where evidently incorrect.

A general Index to the MSS. has been prepared by me to facilitate reference and to give a succinct survey of the contents of this Volume. This Index will attest more than any further remarks of mine could the rich material to be found in the country.

I have no reason to doubt the existence of the MSS. mentioned in these lists, for as often as I have applied for such MSS., I have received them from their owners. The aggregate number of MSS. alluded to in this Volume amounts to 8,376, while the Index contains the titles of 4,284 different works.

I have another Volume in preparation.

A methodically conducted Government literary survey is the only means which could bring to light the vast literary treasures buried in libraries and in out-of-the-way places of Southern India; and such an inquiry can in my opinion only be efficiently conducted if competent persons are from time to time specially deputed for such duty, as was intimated in the third paragraph of the abovementioned G.O. and is done in other Presidencies.

GUSTAV OPPERT.
